

9a

COUNTY OF YORK

MEMORANDUM

DATE: December 6, 1999 (BOS Mtg. 12/15/99)

TO: York County Board of Supervisors

FROM: Daniel M. Stuck, County Administrator 

SUBJECT: Wireless E-911 Fund Appropriation

As you are aware, on June 9, 1999, I briefed the Board of Supervisors on the wireless E-911 initiatives being coordinated by the Commonwealth of Virginia. As a result, the Board concurred with staff moving forward with the provision of this service in the County. Staff then notified the Commonwealth of Virginia Wireless E-911 Service Board and applied for funding support (from the Commonwealth of Virginia) in the amount of \$96,445 for the current fiscal year. I am pleased to report that approval was granted for full funding of this request. In addition, you recently received a presentation from Communications Manager Terry Hall, which provided you with a brief update on this initiative.

Resolution R99-231 authorizes acceptance and appropriation of the funds provided by the Commonwealth of Virginia Wireless E-911 Service Board for the provision of wireless E-911 services. The implementation of wireless E-911 services in the County will ensure that emergency 9-1-1 calls (whether wireless or wireline) are processed in an effective and efficient manner. Ensuring quick and easy access to the local 9-1-1 center is critical to saving lives, property and protecting the public.
